

CATALOG COCONUT SUGAR

PT AZHIRA MUMTAZ TRADE

*“Bringing Nature’s Sweetness
to the World”*

Website:

www.amt-azhira.com

WHAT WE OFFERED

1. Coconut Sugar

Coconut sap is collected from the coconut tree and then cleaned or filtered from dirt and other foreign matter. The coconut sap is evaporated to reduce the water content. Once evaporated and crystallised, it is then put into the mould. The moulded sugar is cooled to harden and form a solid texture.

Specification Product

Colour : Golden brown

Texture : Solid and firm

MOQ : 12 tons

Packing : carton/24 pcs

Weight : 1 kg/pcs

Payment : TT

WHAT WE OFFERED

2. Coconut Sugar Cube

Coconut sap is collected from coconut trees and cleaned of dirt and other foreign matter. It is then evaporated to reduce the water content. Once evaporated and crystallised, it is then put into small block or cube-shaped moulds. The moulded sugar is cooled to harden and form a solid texture.

Specification Product

Colour : Golden brown

Texture : Solid and firm

MOQ : 12 tons

Packing : carton/24 pcs

Weight : 1 kg/pcs

Payment : TT

WHAT WE OFFERED

3. Coconut Sugar Powder

Coconut sap is collected from coconut trees. It is then cleaned or filtered from impurities and other foreign matter. After that, evaporated to reduce the water content and increase the sugar content. The evaporated sap is then cooled to form sugar crystals. The sugar crystals are dried (in the sun or oven) to reduce the water content. They are then milled and sifted into finer and coarser forms.

Specification Product

Colour : Golden brown

Texture : Solid and firm

MOQ : 12 tons

Packing : carton/24 pcs

Weight : 1 kg/pcs

Payment : TT
